

FINANCE FOR ALL YOUR BUSINESS REQUIREMENTS

Amidst the economic downturn and somber global outlook it is more important than ever for farmers to review their finances and consider future plans for their businesses. This very often highlights a need to restructure existing borrowing or to obtain additional long term funding or working capital. The Agricultural Mortgage Corporation (AMC) are experienced, specialist providers of finance for farms and rural businesses and offer competitive, secured finance for any business purpose including:

- Buying land
- Restructuring borrowing
- Machinery purchase
- Diversification
- Land improvements
- New buildings & fixed equipment
- Paying out a partner
- Working capital

The loans which the AMC offer have been developed specifically to meet the needs of farms and rural businesses. They include the Flexible Facility that has the option to reduce your payments to as little as £5 per month, and a long-term-loan that can run for a period from five years upwards, with the potential to extend it up to 40 years.

As your local AMC Agents, whatever you require funding for, Edwin Thompson will be happy to meet with you to discuss your proposal in greater depth and complete an application form on your behalf. There is no cost in making an application and it could well save you money. AMC offers loans at competitive rates with a choice of a variable or fixed rate of interest or a combination of both. Almost all of the applications made by Edwin Thompson on behalf of clients this year have received loan offers on very favorable terms.

Edwin Thompson are an approved AMC agent. For further information contact Neal Thompson or Sarah Rennie (Berwick office – 01289 304432), Christopher Gray or John Raven (Carlisle office – 01228 548385) or Hugh Jones (Galashiels office – 01896 751300).
